

1           If any of you have any suggestions or thoughts,  
2 either as to, one, distribution, different or wider dis-  
3 tribution of these transcripts, because as all of us  
4 realize, it is absolutely imperative that the public be  
5 kept informed as to exactly what is being debated and  
6 what is being transpired, but also if any of you have  
7 any suggestions as to some method that would be more con-  
8 venient for you to keep and use these transcripts while  
9 we are in session. We have not provided a means because  
10 we are a little puzzled as to what is the best way to do  
11 this. The storage space for the delegates is at such  
12 a premium already that if we attempted to provide looseleaf  
13 notebooks, each of you would end up with a great mass of  
14 notebooks, which in themselves would take up space. One  
15 suggestion is simply to leave them loose and you put them  
16 in envelopes. Another is that we provide these, what I  
17 call shoestring binders, these big cardboard binders  
18 that are expandable to any degree.

19           I would suggest that since this is a matter  
20 of your own use and the feasibility of different methods,  
21 that you give consideration to a discussion in committee
