2 THE CHAIRMAN: Any other delegate desire
3 to speak against the amendment? Delegate Hutchinson.

4 DELEGATE HUTCHINSON: Mr. Chairman, I believe Mr.
5 Willoner's key word was the word "perhaps." "Perhaps"
6 the unicameral system will lead us into the future. "Perhaps"
7 it will not. But we have seen that the bicameral system
8 in the State of Maryland has been the system that has been
9 effective. The people have been well-represented. The
10 legislature has done a good job.

11 As it was pointed out before, the legislature
12 in the state of Maryland '66 was one known to be a very
13 effective organization and they worked well and worked well
14 together.

15 I don't think we should stick out our neck.
16 What happens if the unicameral system does not work? Do
17 we have a system that will last for many, many years, not as
18 an effective system? I believe the bicameral system has
19 been effective and we should stick with it.

20 THE CHAIRMAN: Any other delegate desire to speak
21 in favor?
