

1 be followed by the Delegates having an item placed on
2 the daily calendar and agenda. Under Rule 38, order of
3 business, there are two categories in which individual
4 delegates rather than committee chairmen are primarily
5 involved. No. 8, introduction of first reading and
6 reference proposals. Of course there is no necessity that
7 each proposal be itemized on the agenda.

8 No. 10, motions and resolutions. It is
9 preferred that motions be in writing and handed to the
10 Chief Clerk. In fact, Rule 41 requires this, if requested
11 by any delegate. If the delegate knows in advance that
12 a motion is to be made, and wants time on the floor for
13 discussion, the best practice would be to take this up
14 with the Chairman of the Committee on Calendar and Agenda,
15 or if the motion is not of the nature where that would be
16 feasible, he should ask when the motion for adoption
17 of the daily calendar and agenda is made that the agenda
18 be amended to permit this.

19 The reason for this is not to impede any delegate,
20 but so that insofar as possible, all delegates may know
21 in advance what is to be considered at each session.
