

1 the Whole, or a sub-committee of the Convention, so those
2 people also would be required to register and they would
3 be designated as in Section 1(b) as a representative
4 witness.

5 We do not require registration by any person
6 who just appears to present his own point of view.
7 We don't require -- we propose we not require the
8 registration of any elected or appointed official of this
9 state appearing in his ordinary course of duties.
10 Similarly any elected or appointed official of this
11 state, when advocating his own views, would not be
12 required to register. Let us give an example.

13 If, say, the County Attorney of my county,
14 Montgomery County, came down to present Montgomery County's
15 views, I don't think he should be required to register.
16 On the other hand, if the county association or the
17 association of counties chose him as their spokesman
18 to present their views on a particular subject before
19 the Convention, then he too would at least have to
20 register and indicate the fact that he spoke for others
21 apart from himself.
