

1 Court in every county. On the contrary, there was testi-
2 mony equally as persuasive that in some areas of the
3 state the apparent need did not exist for a District
4 Court in every county. We have adopted the provisions of
5 the present Constitution in this regard that there be a
6 Superior Court judge in every county and that requirement
7 continues.

8 Under the proposed recommendation, the legis-
9 lature creates the districts in which the District Courts
10 shall operate. We were encouraged to believe that the
11 legislature in its wisdom will provide a District Court
12 for every county where the legislature can be persuaded
13 that the need exists.

14 On the contrary, in the areas where the need
15 does not seem to require such a court in every county, we
16 are confident that the legislature can group these coun-
17 ties in a district that can serve a useful and efficient
18 function in the administration of justice for those areas.

19 We do by way of digression remind you again, as
20 I did before, that the Committee Recommendation does re-
21 quire in effect a District Court facility in every county
