

1 thing in the record, how much it will cost.

2 THE CHAIRMAN: Delegate Bradshaw, Delegate Mal-
3 kus asks whether it will be possible for you to obtain
4 for him a breakdown of the figure of \$250,000 to show how
5 much of it would be attributable to increase where neces-
6 sary, the salary of superior court judges to the annual
7 salary of \$30,000. Would that be possible?

8 DELEGATE BRADSHAW: Mr. Chairman, I doubt that
9 would be possible. I have a tremendous amount of raw data
10 here which has not been collated, and it would be, I
11 would have to have the assistance of some statistician,
12 or perhaps Dr. Cooper himself.

13 THE CHAIRMAN: The Chair will assign somebody
14 to Delegate Bradshaw in an effort to get the information.

15 Do you have another question, Delegate Malkus?

16 DELEGATE MALKUS: I certainly do, Mr. President.
17 As I understand it, then, I will have a complete breakdown
18 as to how this is going to cost the State of Maryland only
19 \$250,000 to put these first eleven sections into effect
20 with a uniformity of salary.

21 THE CHAIRMAN: That is not what I said.
