

1 concluded, which would mean all five points in the report
2 prior to the adjournment this evening, and the Committee
3 of the Whole rose and reported its action with respect
4 to Committee Report EB-1, a motion to reconsider at a later
5 session of the Committee of the Whole would not be in order.

6 If action is taken now, it is quite obvious that
7 we cannot conclude consideration of the report before the
8 dinner hour recess, and a motion to reconsider this evening
9 would still be in order, because Committee Report EB-1
10 would still be before the Committee of the Whole.

11 If Committee Report EB-1 is still before the
12 Committee of the Whole tomorrow morning, a motion to re-
13 consider would be in order.

14 It is not in order at any time after the Com-
15 mittee of the Whole has reported with respect to Committee
16 Report EB-1.

17 Is there any further question?

18 Delegate Schneider.

19 DELEGATE SCHNEIDER: If the motion on the floor
20 is defeated in its next vote, which I think it might be,
21 would we be able to raise this question about amendment
