

1 DELEGATE SICKLES: I would like to speak very
2 briefly in favor of the motion.

3 I was one of those on the Minority Report
4 described by Delegate Boyce and the reason I was basically
5 was because of this particular provision which really worries
6 me.

7 I recognize in this attempt to make the legislature
8 do the job within two years that it was thought that a very
9 strong penalty or a very strong device had to be used in
10 order to assure that this was done but I think perhaps we
11 go too far when we permit under some circumstances which
12 could possibly occur to permit the Governor to organize a
13 State without any restraint whatsoever.

14 I think the power of reorganization in the hands
15 of the **legislature** is a very important thing but I think it
16 is a very strong power. I think, unchecked, we are really
17 violating some very, very basic principles and I would rather
18 not take that chance and, therefore, I think to have both the
19 Governor and legislature to start out immediately to develop
20 their programs and each able to check on the other is very
21 important and, therefore, I support it.
