

1 delegates, that two long days in a row such as we had
2 yesterday aren't really desirable.

3 For that reason we will not have a session this
4 evening. I do urge all delegates who have changed their
5 plans and will be staying down this evening to attend the
6 committee meetings.

7 There is a very important meeting, I think, of
8 the Committee on Style and there are other important
9 committee meetings, discussing the schedule of legislative
10 and the schedule of transitory provisions.

11 These are becoming more and more urgent, and I
12 don't think any of you would lack for matters to occupy
13 your attention during the long winter evening.

14 The Secretary is keeping in touch with the
15 state police, and will advise me by mid-afternoon of
16 the anticipated condition of the roads. If the present
17 indications continue, that the snow will be heavy and not
18 change to rain, I think the suggestion will be made that
19 we adjourn perhaps at 5:00 so that the delegates who will
20 be riding the roads can get on the road and home before
21 a hard freeze sets in.
