

1 propose to make the daily Calendar and Agenda ~~§~~ more  
2 particular<sup>IZED</sup> and insofar as reports of committees, reports  
3 of select committees, second and final reading of pro-  
4 posals, unfinished business, special orders of the day  
5 and general orders of the day, such matters will be  
6 placed on the agenda in particular and should be on the  
7 desk of each member before the close of business on the  
8 previous day, ~~not before the termination of the session~~  
9 ~~but before the business day ends~~. Of course, the intro-  
10 duction of the first reading of proposals and motions  
11 and resolutions will always be an item of business, and  
12 ~~we~~<sup>the floor</sup> will be open for those matters, ~~so~~ that it is necessary  
13 that the Committee Chair<sup>e</sup>man as well as individual dele-  
14 gates who have any items that would normally come under  
15 the categories which I have mentioned, which must be  
16 particularized, should communicate either through the  
17 liaison member of this Committee or with the office of  
18 the Committee on Calendar and Agenda, not later than fif-  
19 teen minutes after the close of the session on any given day  
20 so that that matter may be considered for the agenda for  
21 the following day.
