

1 necessity.

2 As you see, the doctrine of quick take in these
3 companies is limited to those times when there is that
4 showing of an immediate and urgent necessity.

5 Ordinarily, I would think that the doctrine of
6 quick take ought not to be granted unless there is that
7 showing. On the other hand, I do not think that any
8 power of eminent domain should in the future, should in
9 the future be granted to any corporation unless there was
10 a limitation of time in order to do the condemning.

11 Do not confuse the condemnation power with
12 the operation power. The operation power would follow.
13 This only applies to the time in which the condemnation
14 could be done and our amendment provides at such time
15 as is reasonably necessary in order to do the specific
16 condemning for special purpose or purposes not to
17 exceed three years.

18 Some have said maybe they couldn't get a con-
19 demnation completed in three years. I think three years
20 affords in most instances ample time in which to do the
21 condemning.
