

1 I don't think that authority should be continuing
2 together. Besides that, there is nothing to prevent the
3 private person or corporation, if they haven't completed
4 their condemning within the three years from getting
5 another act to extend and I think this power of eminent
6 domain is a powerful weapon and when it is exercised
7 by private corporations should have some limitations.

8 AS I said before, we do not quarrel with the
9 majority report as far as it goes, but in this area, we
10 thought that there ought to be some reasonable restric-
11 tions so that our people would know that if eminent
12 domain power comes to reside in a local subdivision, that
13 those local subdivisions are not going to be let off the
14 beaten track and give a definitely continuing authority to
15 any group or association.

16 I think I have covered the purposes of this
17 amendment, because on the question of quick take, if you
18 will notice our report, it was our intention to leave the
19 matter of quick take up to the legislative authority but
20 in this area, I felt that where it was given not to the
21 public for strict public use and there is that differentia-
tion between public use and sometimes what is known as
