

1 according to your study of the problem, with your con-
2 tacts with labor people, have you gotten the impression
3 that many public employees and other employees of private
4 organizations are really demanding this right?

5 I am speaking-- In other words, I am speaking of
6 the people not protected. Is this the impression you
7 have received from your study of this situation?

8 DELEGATE BOTHE: I don't think there could be
9 any question or doubt. All you have to do is pick up
10 the evening paper several times a week and see another
11 account of how people are trying to effectuate these
12 rights against their employers, and I would certainly
13 suppose that it is of prime importance to them.

14 I feel so convinced myself or I wouldn't be
15 here.

16 THE CHAIRMAN: Any further questions?

17 Delegate Marvin Smith.

18 DELEGATE M. SMITH: Delegate Bothe, I am sure
19 down at law school you heard Professor Reno, on more than
20 one occasion, say we have got to get on. Do you think
21 maybe it is time to get on to debate?
