

make a correction in the statement of fact in the second whereas. I think you have already, Mr. President, indicated in your remarks from the Chair, that the statement that each of three delegates is serving on each of eight substantive committees is not correct. I think it would be unfortunate to pass it in the permanent record, if I am correct, that it is probably a mistake of fact. Could we have unanimous consent to correct that?

THE PRESIDENT: Give me the correction again. What line?

DELEGATE BURDETTE: In Line 11. Actually the problem is in lines 13 and 14: "Each of these eight substantive committees." We say three delegates have been assigned to eight substantive committees and, therefore, are exercising the right to vote on each of these eight substantive committees. I think no delegate has had more than three votes prior to passage of this resolution. My suggestion is simply that we authorize our clerical staff to state the situation as it is in fact.

THE PRESIDENT: Would your problem be solved if in line 14 after the word "committees" you inserted the words "on which they are respectively serving."

DELEGATE BURDETTE: Yes, it would, Mr. President.

THE PRESIDENT: Would the sponsors of the resolution accept the change?

DELEGATE KIRKLAND: I would, Mr. President.

THE PRESIDENT: Is there objection? Then we have unanimous consent to amend line 14 of the resolution by inserting after the word "committees" the words "on which they are respectively serving." There being no objection, the Chair takes it there is unanimous consent, and the correction is made. Delegate Koss.

DELEGATE KOSS: Mr. President, with the permission of the Chair, I would just like to make a comment to point out that under the adoption of this resolution, the majority in some of the committees has to be a three-fifths vote. Thank you.

THE PRESIDENT: Delegate Mason. For what purpose does the delegate rise?

DELEGATE MASON: Mr. Chairman, I rise on a point of personal privilege to announce that we have in the front gallery 72 students from Lamell Junior High School who have been here observing our deliberations. They have to leave, because

the session lasted longer than usual. I would like to welcome them on behalf of this Convention.

(Applause.)

THE PRESIDENT: I would like to add to your announcement, Delegate Mason, that the students are accompanied by their teachers, Mrs. Boon, who happens to be a sister of the assistant clerk, and by another teacher, Mrs. Tillery. The group has been in the Convention halls all day visiting the various committees.

I have two other announcements to make. One has to do again with the showing of the film, "The Mighty Oak." The attendance day before yesterday was minimal. The attendance yesterday was even more so, with two present. I do not know whether this indicates a lack of interest. I am more inclined to think it indicates a possible conflict with the engagements of the delegates in attending meetings of their committees called for promptly after the session.

We are considering the feasibility of showing the film in this house. A trial run was held and it was quite evident that in daylight it is not feasible. We cannot get a good view of the picture. The arrangement generally is poor. However, daylight saving goes out this weekend, and since Monday afternoon's session will be late, it is possible that we may be able to schedule a showing of the film in this chamber when it will be dark enough outside to make the picture clearly visible. This will be discussed with committee chairmen, and if it does not involve a conflict with the scheduled meetings of committees, a further announcement will be made. For what purpose does Delegate Scanlan rise?

DELEGATE SCANLAN: Question of the Chair, Mr. President. With all due deference to my friend, Delegate Malkus, will attendance be compulsory at the showing of this great film?

THE PRESIDENT: The attendance will be left to those who desire to attend. The film is well worth seeing.

I have one other announcement I desire to make. That has to do again with the matter I mentioned the other day, the reports of committees and particularly the minority reports. The committees have been moving ahead steadily with their voting. It is, I think, fairly obvious now in most instances, where there will be and where there will not be a minority report.

I ask the delegates who may perhaps constitute majorities on these issues, please
