

will bear with me a moment, I will find out what it is.

Delegate Bamberger, do you have a pink copy of the paper to which you refer?

DELEGATE BAMBERGER: Not with me.

DELEGATE SCANLAN: Mr. President, I believe I have a copy of the resolution.

THE PRESIDENT: Delegate Scanlan, would you repeat that, please?

DELEGATE SCANLAN: I believe I have a copy of the resolution to which Delegate Bamberger refers.

THE PRESIDENT: Would you send it up by page, please? Delegate Bamberger, the Chair would like to ask you a question. Is it urgent that the matter be acted upon two days hence?

DELEGATE BAMBERGER: I do not know how urgent it is that we regulate lobbies before the Convention but this is a matter which has been before the Committee for some time.

THE PRESIDENT: I think it is highly desirable that it be acted upon promptly but I think it is much more desirable that the delegates have a copy of what is to be considered for the full time provided by the rules. I do not know why this has not been reproduced. It has not been. I would therefore prefer to hold it to see that it is reproduced. It can be introduced tomorrow.

Delegate Scanlan?

DELEGATE SCANLAN: On that subject, Mr. President, there is a typographical error in the very last paragraph on page 4.

THE PRESIDENT: Delegate Scanlan, if so, can we correct it with the Clerk and not take up the time now?

DELEGATE SCANLAN: All right.

THE PRESIDENT: I will see that the corrected copies are distributed to you this afternoon, if this is at all possible. Delegate Bamberger?

DELEGATE BAMBERGER: Mr. President, I was told some hours ago that it had been reproduced and it may be only a matter of finding it. One of the pages is now looking for it. If it is found, may it be introduced?

THE PRESIDENT: If it is found before we adjourn this afternoon, it can be introduced. If not, I suggest to you that you

could move to suspend the rules to have a quicker consideration tomorrow—not consideration tomorrow, but a motion tomorrow.

Are there any other motions and resolutions?

*(There was no response.)*

I have very few announcements. At the request of the governor, his address to this Convention has been postponed from day after tomorrow, Wednesday, until Friday, September 29. I may say by way of explanation that the reason for the postponement is because the governor regards his address to this Convention as of such importance to him, and to the State, and he hopes, to the Convention, that he desires to have more time to work on it, and his schedule is such that we could not schedule it before Friday, the 29th.

We would not have scheduled it for a Friday except for the fact that if we had not done so in this instance, the next available date would have been October 12. The officers thought it would be preferable to have the governor's address on Friday rather than delay it that long.

I have been asked by the Chief Page to request the delegates to stop by the bill room, not the mail room, the bill room, right down the hall after this session to pick up mail. All of the mail received this morning was not distributed to your offices and what has not been distributed is in the bill room.

Almost all of the delegates have had their picture taken at Room 310 in the State Office Building. However, there are some 20 or 30, I believe, who have not yet had their photographs taken. It takes but a moment. Delay in completing the photographs is delaying the completion of the roster, which we all want very much. I request you, therefore, please to stop by Room 310, State Office Building, and have your picture taken. It will take two or three minutes. Any announcements by committee chairmen?

DELEGATE KOSS: Mr. President, the Committee on Suffrage and Elections will meet tomorrow morning at 10 o'clock at Shaw House to hear Mr. Lewis D. Asper, who is the reporter to the Committee on the Elective Franchise of the Commission.

DELEGATE KIEFER: Mr. President, the Committee on Personal Rights and the Preamble will meet immediately after this meeting but I want to announce that tomorrow, immediately after adjournment of this Convention, we are holding a hearing, or really a discussion on matters that are
