The Commission consists of the Governor, Comptroller, President of the Maryland Agricultural College and President of the Johns Hopkins University, who appoint a Geologist of established reputation. (Ch. 51, 1896.) (Ch. 129, 1898.)

The State Geological and Economic Survey is established for the purpose of examining the geological formations of the State of Maryland with reference to their economic products, and for the preparation of reports and maps illustrating the character and distribution of the mineral resources. It likewise carries on work in hydrography, forestry, terrestrial magnetism, and the mapping of the agricultural soils in co-operation with the National Government. The most important feature of this joint work is the preparation and publication of a topographic map of the State on the scale of 1 mile to 1 inch.
