The Chief of the Bureau of Statistics and Information is appointed by the Governor, with the consent of the Senate, for a term of two years from the first Monday in May. The Chief appoints all clerks and employes in the Bureau. (Ch. 29, 1892.)

There are two inspectors to inspect all places where clothing and cigars and cigarettes are made and eight inspectors to carry out the provisions of the Child Labor Law.

The physicians examine all applicants for employment certificates to determine if each has attained the normal development of a child of its age and is in sufficiently sound health and physically able to be employed in the occupation or process for which a permit is sought.

The duty of this Bureau is to enforce the Factory Inspection and Child Labor Laws. It is further charged with maintaining a free employment agency and with collecting information relating to the industrial interests of the State and with the annual publication of such data.
