

Dr. R. E. Salter, Chief, Bacteriologist, Baltimore.

Dr. W. W. Randall, Chief Chemist, Baltimore.

Through its Bureau of Sanitary Engineering, exercises supervision over the purity of the waters of the State; examines all sewage and water supply projects, and approves or amends them; can require local authorities to install sewerage or water works, or to alter the construction or operation of the same.

Robert B. Morse, Chief, Baltimore.

Through the Commissioner of Food and Drugs, controls the purity of foods and drugs, and inspects pharmacies, dairies, canneries, slaughterhouses, markets and other places where foods are produced, sold, manufactured or stored.

A. L. Sullivan, Commissioner, Baltimore.

Through its Deputy State Health Officers, exercises direct supervision over all matters affecting the public health in each of the several sub-divisions of the State, known as Sanitary Districts, and comprising one, two or three counties.
