MR. PALMER: I have not heard from you in a long time, the reason I did not write I have been busy going to school this winter I went one quarter and nearly a half I am well and hope you are the same Mr. Palmer I have changed my mind and if you have no objection I would like to be a black smith I think it is a better trade than farming I'll tell you the reason why I think so if I should learn Blacksmithing and live to be a man and could go to farming then if anything should break such as wagons and plows I could mend them myself. Mr. G. and all the rest says they are very willing for me to go and learn the trade, give my love to Mr. D. and Charlie D. and all the rest of my friends if you should happen to see Charlie D., tell him to write to me.
