

REPORT
OF THE
PRESIDENT AND VISITORS.

*To the Honorable the
General Assembly of Maryland :*

THE President and Visitors of the Maryland Hospital submit a general statement of the condition of the Institution, through the accompanying reports.

The Executive Committee, in the intervals between the stated meetings of the Board, have given very particular attention to the affairs of the Institution, and are happy to say that the Medical Superintendent has, as heretofore, discharged his administrative and professional duties with diligence and ability. The tabular financial statements herewith submitted, and the books and accounts, have been examined by the committee, and reported by them to be correct.

The President and Visitors take great pleasure in bearing testimony to the efficiency of the Assistant Physician ; also to that of all the officers of the Institution.

They have been much gratified by observing the neatness and good condition of the entire establishment.

Respectfully submitted,

WILLIAM FISHER, M. D.,
President.

MARYLAND HOSPITAL, January 10th, 1867.
