

The amount received for four consecutive quarters is about \$2,937, and three-fourths of half this sum would make about eleven hundred dollars, which would be the estimated compensation of each of the two inspectors, and as the facilities are greater, no doubt the amount weighed will be increased.

"A bill" has been prepared and is herewith reported to authorize the erection of an additional set of scales south of the Frederick road so as to accommodate the four roads above mentioned.

And your Committee further report that much dissatisfaction is reported to them to be felt in relation to the present position of the scales by those for whose especial accommodation it was located (those who enter by the Reistertown and Liberty roads), growing out of its distance from the points where the largest portion of the hay is sold. Those who reside near these scales are also anxious that it should be removed from their neighborhood. This part of the city is high and commanding and is being rapidly improved by the erection of dwellings, and the inconvenience resulting from the constant presence and moving about of large loads of hay is a source of annoyance and inconvenience. The Committee have, therefore, provided for selling the present site and removing the scales therefrom when a more convenient lot can be found and purchased.

E. HAMMOND,
Chairman.

Also, reported favorably a bill entitled, an Act to add an additional section under the head of hay and straw, to Article four of the Code of Public Local Law, entitled, city of Baltimore, authorizing the erection of additional Hay Scales in the said city, and the purchase of a site therefor, and the appointment of an additional Inspector of Hay and Straw, and to regulate the compensation of Inspectors of Hay and Straw;

Which was read a first and by special order a second and third time;

Three fourth of all the members being present and concurring, and passed by yeas and nays as follow:

AFFIRMATIVE.
