CLIMATE.

The following Meteorological Table shows the comparison between the temperatures of the States of New York and Maryland, also the rain-fall, which clearly illustrates the superior advantages of the latter for culinary plants, grapes and strawberries.

The observations for the State of New York were taken at eighteen different localities, and for Maryland at five places.

MONTH.	State of New York.				State of Maryland.			
	Av 1854 to '59.		Av 1863 & '64		Av 1854 to '59.		Av 1863 & '64	
	Mean Tempt.	Mean Rain.	Mean Tempt	Mean Rain.	Mean Tempt.	Mean Rain.	Mean Tempt	Mean Rain.
January	23°.4	3.13	28°.5	3.60	30°.4	3.32	35°.6	3.11
February	25 .2	3.54	27 .1	2.54	32 .1	2.20	35 .0	2.52
March	32 .0	2.59	30 .5	3.08	40 .3	2.54	37 .7	3.58
April	43 .9	4.43	44 .8	3.40	51 .3	3.57	48 .5	5.63
May	56 .6	3.47	59 .5	4.16	62 .8	4.25	65 .7	5.24
June	65 .9	4.39	64 .3	1.71	70 .7	4.60	73 .5	2.07
July	72 .4	3.72	72 .8	3.97	77 .0	3.05	76 .4	4.64
August	67 .5	3.38	71 .0	5.75	73 .1	3.85	78 .4	2.06
September	60 .5	3.60	58 .5	3.08	67 .2	4.46	64 .1	3.33
