

Number.	£.	s.	d.	q.	pts.
1,000	2	14	9	2	14
900	2	9	3	3	12
800	2	3	10	0	11
700	1	18	4	1	10
600	1	12	10	2	10
500	1	7	4	3	5
400	1	1	11	2	4
300	0	16	5	1	1
200	0	10	11	2	3
100	0	5	5	3	2
90	0	4	11	0	71
80	0	4	4	2	41
70	0	3	10	0	11
60	0	3	3	1	81
50	0	2	8	3	51
40	0	2	2	1	21
30	0	1	7	2	90
20	0	1	1	0	60
10	0	0	6	2	30
9	0	0	5	3	67
8	0	0	5	1	4
7	0	0	4	2	41
6	0	0	3	3	78
5	0	0	3	1	15
4	0	0	2	2	52
3	0	0	1	3	89
2	0	0	1	1	20
1	0	0	0	2	63

The preceding table is fitted to all rates and times, as curious in its construction, as it is useful in practice, as will appear from the following example :

What is the interest of £ 100 for a year, or 365 days, at $3\frac{1}{2}$ per cent ?

Multiply
