

field by 22 Deputy State Health Officers, each one a resident in one of the sanitary districts of the State. The Deputy State Health Officers represent the Department in their respective districts and supervise the activities of the Department therein.

In the Executive Office are three divisions, Legal Administration, Public Health Education, and Oral Hygiene.

Mr. J. Davis Donovan is Chief of the Division of Legal Administration and his duties consist in the investigation of all infractions of public health laws and representation of the Department in court in cases of prosecution for violations of such laws. This Division also enforces the provisions of the Mattress and Bedding Law which requires that mattresses, pillows and comfortables have attached to them a tag furnished by the Department on which is a statement of the materials used in filling them.

Miss Gertrude B. Knipp is Chief of the Division of Public Health Education and her duties consist of assembling and distributing information on health promotion and disease prevention; preparing bulletins in popular form for press purposes, with special reference to use in the counties; preparing circulars and other material and arranging for use of lantern slides, movie films and health exhibits.

Dr. Richard C. Leonard is Chief of the Division of Oral Hygiene and his duties consist of the organization of school dental clinics wherein all school children are afforded regular dental examinations while indigent children may also receive necessary dental treatment; educational work in the importance and maintenance of mouth health is carried on through lectures and clinics or films and pamphlets distributed through the Division.

In addition to the Executive Office the Department consists of eight bureaus, the duties of which are described as follows.

The Bureau of Vital Statistics registers all marriages, divorces, births and deaths occurring in Maryland, licenses and registers midwives, and regulates the transportation of the dead.

Dr. John Collinson, Chief, Baltimore, Md.

The Bureau of Communicable Diseases receives daily reports from Health Officers of communicable diseases; investigates outbreaks of disease and directs measures for their control; enforces the laws on notification of reportable diseases and the smallpox vaccination law; aids in maintaining tuberculosis clinics and keeps a separate and confidential record of all cases of tuberculosis and of venereal diseases; maintains venereal disease clinics, directs medical inspection of public schools and investigates nuisances. The Chief of this Bureau is also Director of Health.

Dr. C. H. Halliday, Epidemiologist, investigates the occurrence, distribution and types of communicable diseases in individuals and communities in the counties of Maryland, in order that measures for the control of such diseases may be instituted. The Division studies the sources and routes of infection, assists local health authorities or family physicians in the diagnosis of communicable diseases assist, in finding unrecognized or unreported cases and advises in regard to the proper method for the collection of laboratory specimens. He also assists in diphtheria, typhoid fever and smallpox immunizations when the latter cannot be done by private physicians or by local health officers.

Dr. C. W. G. Rohrer, Diagnostician, is responsible for the diagnosis of cases of communicable diseases, notably those of the exanthematous group. He acts in an advisory capacity to medical inspectors and other physicians in matters pertaining to the prevention and further spread of such diseases; he visits places where an original outbreak of a communicable disease exists, establishing the diagnosis. He interviews victims of mad-dog bites and administers Pasteur treatment. He also classifies deaths by nature and cause, collating and recording essential data missing from the original death certificates.
