Superintendent and General Superintendent of Tubercular Sanatoria, Dr. Victor F. Cullen.

The members of this board are appointed for the term of six years. The terms of two expire every legislative year. The Governor, the Comptroller and the Treasurer are ex-officio members of the board.

The State Sanatorium cares for 508 patients, and Mount Wilson cares for 170 patients. The population of the Eastern Shore Branch is 50 patients. Henryton cares for about 222 patients, all colored.

The State's program for the hospitalization of tubercular patients has been practically completed, and is expected to meet the demands of at least a number of years. The facilities are among the finest in the country, and are recognized everywhere as combining economy in operation and excellence in treatment.

Among white people the death rate was reduced from 150.8 per 100,000 in 1917 to 52 in 1937. The colored death rate was reduced from 413.6 in 1917 to 206 in 1937 and now over one-half of the deaths from tuberculosis are among colored people, which represents about one-sixth of our population.
