

The paramount duty of the Dental Board, as provided by the Dental Practice Act of this State, is to regulate the practice of Dentistry in Maryland by testing the qualifications of candidates.

It requires that all applicants for license shall be 21 years of age and shall be graduates of dental colleges duly incorporated to grant degrees in Dental Surgery by the laws of one of the United States or Canada.

Two annual examinations are held—lasting three days each—one being in the spring, the other in the fall. Each applicant for examination files with the Secretary of the Board a sworn statement setting forth his age, name and address, college or graduation, etc., together with the examination fee of twenty dollars.

The examinations are both theoretical (written) and practical.
