

improvement of agriculture and rural life; and it aids in every way possible in making effective the regulatory work and other measures instituted by the State Board of Agriculture.

#### Agricultural Experiment Station.

The agricultural work of the University naturally comprises three fields: research, instruction, and extension. The Agricultural Experiment Station is the Agricultural research agency of the University, which has for its purpose the increase of knowledge, primarily for the direct benefit of the farmer. It is also the real source of agricultural information for use in the classroom and for demonstrations in the field. The Experiment Station work is supported by both State and Federal appropriations.

The Maryland Station, in addition to the work conducted at the University, operates a sub-station farm of fifty acres at Ridgely, Caroline County, and a farm of about sixty acres at Upper Marlboro for tobacco investigations. Experiments in co-operation with farmers are conducted at many different points in the State. These tests consist of studies with soils, fertilizers, crops, orchards; insect and plant disease control, and stock feeding.

#### Princess Anne College

Telephone 39

R. A. Grigsby, Acting Dean of Administration

Princess Anne College at Princess Anne, Somerset County, is the Negro Land Grant College of Maryland maintained for the education of Negroes in agriculture, the mechanic arts, and home economics.
