

The main campus of the University is located at College Park. Instruction is given here in the undergraduate and graduate courses of the College of Agriculture, College of Military Science and Tactics, College of Arts and Sciences, College of Business and Public Administration, College of Engineering and Aeronautical Sciences, College of Home Economics and the College of Physical Education, Recreation and Health. Also located at College Park are the Graduate School, the Summer School and the offices of the College of Special and Continuation Studies.

Professional Schools

The professional schools of the University of Maryland comprising the schools of dentistry, law, medicine, nursing and pharmacy, together with University Hospital, are located in Baltimore at Lombard and Greene Streets. The College of Special and Continuation Studies also offers courses here.

Maryland State College—Division of the University of Maryland

John T. Williams, Ed.D., President
Princess Anne Telephone: Princess Anne 39

The Maryland State College, Division of the University of Maryland, (formerly Princess Anne College) is the Land-Grant college of Maryland for Negroes. Courses leading to a bachelor's degree are offered in agriculture, home economics, industrial and mechanic arts and the liberal arts and sciences.

State Board of Agriculture

The Board of Regents of the University of Maryland acts as the State Board of Agriculture. As such, it has the authority to enforce the laws of the State relating to agriculture, to pass such regulatory measures as it deems necessary and to administer the State and Federal funds made available for agricultural purposes (Code 1939, Art. 2A, secs. 1-15).

Extension Service

The Extension Service was established by Federal and State laws in 1914. The service is represented in each county of the State by a County Agricultural Agent and a Home Demonstration Agent. The Extension Service is supported by Federal, State and county funds. Scientific and economic agricultural information for rural people, assistance in promoting better marketing conditions, cooperation with rural groups and associations and the encouragement of the marketing of home supplies by rural women are all a part of the work of the Extension Service. In addition to work with adults, the agency works with rural boys and girls through the 4-H clubs. Short courses in various fields are also conducted by the service (Code 1939, Art. 2A, secs. 11, 12).

Agricultural Experiment Station

The Agricultural Experiment Station was established in 1888. It is an enterprise of the State with extensive Federal grants. The work of the station centers at laboratories located at College Park where studies of insects and diseases, soil fertility, botanical and other problems are undertaken. The livestock and dairy barns with their experimental herds are also located at College Park. Research in soil fertility, plant breeding and general horticultural problems is conducted at a plant research farm located near Beltsville. An experimental farm, located near Upper Marlboro, is given over to the problems of tobacco growing and curing. Near Ellicott City, there is a farm which is devoted to livestock problems. Research in the
