

of the fisheries. The first is concerned with "farming" for the purpose of conserving and increasing the oyster. The second is a fish management program which limits the number of commercial licenses issued each year for the taking of fin-fish. The third is a program of interstate cooperation which is concerned primarily with the crabbing industry. In addition, each of these: crabbing, fin-fishing, and oystering is subject to certain regulatory restrictions. To enforce these regulations, the Department maintains a fleet of thirty-four patrol boats and one patrol plane (Code 1947, Art. 19A, secs. 5-10).
