The Department of Geology, Mines and Water Resources was established in 1941, superseding the State Geological and Economic Survey Advisory Commission, the Bureau of Mines, the Water Front Commission, and the Water Resources Commission. The Department is under the direction of a Commission of five members appointed by the Governor for terms of five years. The term of one member expires each year. The Commission selects its own Chairman and appoints the Director of the Department. Those functions of the Department dealing with geology and water resources are under the immediate supervision of the Director; the supervision of the mining industry is charged to the Bureau of Mines.

The Department has supervision of topographic, geologic, hydrographic, and magnetic surveys. It prepares topographic, geologic and
