The Department of Game and Inland Fish, established in 1939 to supersede the Conservation Department, is associated with the Board of Natural Resources. The Department is directed by a nonsalaried five-man commission appointed by the Governor from the several geographical regions of the State for five-year terms, one term expiring each year. The Commission elects a chairman and a vice-chairman from its membership and appoints the Director of the Department. The Department enforces the game and fresh-water fish laws and such additional regulations as it enacts for the conservation of the resources in its charge. Such rules may restrict the terms of the game and fresh-water fish laws. The Department also receives the proceeds from the sale of angling and hunting licenses (Code 1957, Art. 66C, secs. 14, 111-233).

As of June 1956, the Department owned game farms and refuges totaling 35,000 acres, as follows: Gwynnbrook State Game Farm in Baltimore County, Montgomery State Game Farm in Montgomery
