The Office of the Superintendent of Public Buildings and Grounds was created in 1862. The Superintendent, who is appointed by the Governor, has the following responsibilities: He is in charge of Government House salaries, service, and supplies. He has charge of the operation, maintenance and protection of Government House, the State House, Old Treasury Building, Court of Appeals, Hall of Records, Treasury Building, State Office Building, Treasury Building Annex, and the Power Plant; he is also responsible for upkeep of the grounds surrounding these buildings and of the parking lot. He operates the Fire Department, the Sewerage Department, and the garbage collections for all these State buildings. Finally, he is in charge of the preservation of all State House paintings.

The Superintendent keeps an inventory of all movable property located in each of the buildings, and transmits a copy to the Secretary of State (Code 1957, Art. 41, secs. 133-39).
