

Political Science: A Selected Bibliography of Books in Print with Annotations, compiled by Franklin L. Burdette, Jerold N. Willmore, and John Witherspoon. College Park, 1961.

The Public Utility Franchise in Maryland: Scope and Limitations, by Robert J. Sickles. College Park, 1963.

Health Sciences Library

The Health Sciences Library. Baltimore, 1962.

Institute For Fluid Dynamics and Applied Mathematics

Technical Notes:

- BN-168: On Some Generalized Cauchy Problems and the Convexity of Their Solutions, by Robert Wayne Carroll, 1959.
- BN-231: On Magneto-hydrodynamic Stability of a Self-gravitating Plasma, by R. K. Jaggi. 1961.
- BN-238: On a Class of Singular Solutions of the Euler-Poisson-Darboux Equation, by D. K. Suschowk. 1961.
- BN-246: Pointwise Bounds in Parabolic Partial Differential Equations, by Fred J. Bellar, Jr. 1961.
- BN-248: Bounds for Derivatives in the Dirichlet Problem for Poisson's Equation, by J. H. Bramble and L. E. Payne. 1961.
- BN-237: Bounds for Solutions of Second Order Elliptic Partial Differential Equations, by J. H. Bramble and L. E. Payne. 1961.
- BN-239: Some Integral Inequalities for Uniformity Elliptic Operators, by J. H. Bramble and L. E. Payne. 1961.
- BN-241: Some Higher Order Integral Identities with Application to Bounding Techniques, by J. H. Bramble and B. E. Hubbard. 1961.
- BN-242: The Effect of Coulomb Scattering on Two-Stream Instabilities in a Plasma, by D. A. Tidman. 1961.
- BN-249: A Reciprocal Theorem for Linear Electrostriction with Some Applications, by R. J. Knops. 1961.
- BN-250: Bounds on Apsidal Angles, by Frederic T. Metcalf. 1961.
- BN-253: On the Calculation of Analytic Functions of Cyclic Matrices, by P. B. Abraham and G. Weiss. 1961.
- BN-256: On the Geometric Character of Singularity Manifolds for Marmonic Functions in Three Variables, by R. P. Gilbert. 1961.
- BN-257: On the Formulation of Finite Analogues of the Dirichlet Problems for Poisson's Equation, by J. H. Bramble and B. E. Hubbard. 1961.
- BN-260: Bounds for Eigenvalues of the Sturm-Loiuville Problem by Finite Difference Methods, by B. E. Hubbard. 1961.
- BN-261: Some Uniqueness Theorems in the Theory of Elasticity, by J. H. Bramble and L. E. Payne. 1961.
