

The Board of Regents, within the limits prescribed by law, may issue revenue bonds to finance the building of dormitories and other student housing facilities. Student union buildings at College Park and Baltimore have been constructed as well as a combination Physical Education and Auditorium building at College Park. The Regents issue such bonds directly with the payments of principal and interest made from revenues realized from the use of the buildings (Code 1957, 1965 Supp., Art. 77, secs. 249-59J).

There are two principal campuses of the University located at College Park and at Baltimore. At College Park, instruction is offered for both undergraduate and graduate students in the Colleges of Agriculture, Arts and Sciences, Business and Public Administration, Education, Engineering, Home Economics and Physical Education, Recreation, and Health. Graduate level instruction will be provided by the School of Library Science in the fall of 1965. Also located at College Park are the Graduate School, the Summer School, and the offices of University College. The latter college operates the evening school program at College Park and a self-supporting college level program at off-campus centers throughout the State of Maryland. It also maintains overseas centers for United States personnel in the European, North Atlantic and Far East military operations.

The second principal campus of the University is located in Baltimore, at Lombard and Greene Streets. This campus accommodates the University's professional schools of Dentistry, Law, Medicine, Nursing, Pharmacy and Social Work. The University Hospital is located here and is affiliated through professional programs with each of the six schools. Evening courses are also offered in Baltimore by University College.

Maryland State College—Division of the University of Maryland

John T. Williams, Ed.D., President

Princess Anne (Somerset County) 21853 Telephone: Princess Anne 780

The Maryland State College, Division of the University of Maryland (formerly Princess Anne College), is a state supported land-grant college. It offers courses leading to a bachelor's degree in agriculture, home economics, industrial and mechanical arts, and liberal arts and sciences. The external government and control is vested in the Board of Regents of the University of Maryland and the Maryland State Board of Agriculture.

The College was founded in 1886 as the preparatory branch of the Centenary Bible Institute, chartered in 1867 and renamed Morgan College in 1890. The preparatory branch was known as the Delaware Conference Academy. By the Morrill Act of 1890, the College received federal funds and became known as the Princess Anne Academy, or "Eastern Branch" of the Maryland Agricultural College. In 1919, by agreement with Morgan College, the University of Maryland assumed control of the College, although it remained in the hands of the trustees of Morgan College until 1936. The State purchased it by Chapter 548, Acts of 1935.

Staff: 122.

AGRICULTURAL EXPERIMENT STATION

The Maryland Agricultural Experiment Station was established following passage of the Federal Hatch Act in 1887 making available to the states grants-in-aid for the conduct of research pertaining to agriculture. Both State and Federal funds are appropriated for its
