

gation of needs throughout the State for undergraduate, graduate and adult education, for professional and technical training and for research facilities. The Council also has the responsibility for the presentation of plans and recommendations for the establishment and location of new facilities and programs.

The Council conducts studies regarding the Statewide coordination of the activities of the public institutions of higher learning, academically, administratively, and fiscally and makes recommendations to the governing boards of public institutions of higher education, as well as to State officials. The agencies, and institutions having custody of and responsibility for data, statistics, and information on matters pending before or of interest to the Council are required to comply with any reasonable request of the Council for such information.

The Council also submits an annual report to the Governor and the General Assembly which includes a report of its activities, together with the results of any studies it has undertaken or completed, together with such plans or recommendations respecting higher education (Code 1957, 1965 Repl. Vol., Art. 77, secs. 325-328).
