#### The Department

Kenneth N. Weaver, Director

The Johns Hopkins University, Baltimore 21218 Telephone: 235-0771  
Telephone: 235-1792

The Maryland Geological Survey was established by Chapter 73, Acts of 1964, to supersede the Department of Geology, Mines, and Water Resources, created by Chapter 508, Acts of 1941, to supersede the State Geological and Economic Survey Advisory Commission, the Water Front Commission, and the Water Resources Commission. The Survey was placed in the Department of Natural Resources by Chapter 154, Acts of 1969.

The Department is directed by a five-man Commission appointed by the Secretary of Natural Resources for five year terms, one term expiring each year. The Commission selects its own chairman. The Governor appoints the Director of the Department upon the recommendation of the Secretary of Natural Resources. The Commission acts in an advisory capacity to the Director with respect to matters within the jurisdiction of the Survey.

The Department supervises topographic, geologic, hydrographic, and geophysical surveys. It prepares topographic, geologic, and such other maps as may be necessary to meet specific needs. It makes reports on the extent and character of the State's geology, mineral and water resources. The Survey publishes from time to time County Geologic Reports, Reports of Investigations, Water Resources Basic Data Reports, and Information Circulars. In addition, the Survey publishes
