This Commission was originally created by the Governor in 1959 to improve the Workmen's Compensation Law and to insure that changes in the law are made to improve the workmen's compensation system in accordance with the standards, but at the same time, to insure that Maryland still remains competitive with the other states.

This Commission meets regularly and recommends to the Governor and the Legislature improvements in the law. The changes considered by this Commission are discussed with representatives of labor, management, and the insurance industry and has resulted in a greater understanding between the various interests. Its recommendations have been well accepted by the Legislature, as well as the workingman and the employer.
