The State Board for Community Colleges was established by Chapter 454, Acts of 1968 to exercise full control over the community colleges in the State. Until July 1, 1969, the Board served as an advisory board to the State Board of Education with respect to the operation, promotion and functions of the community colleges. After July 1, 1969, the Board assumed its statutory duties.

The Board consists of eight members. One of the members must be the State Superintendent of Schools. The remaining members are appointed by the Governor with the advice and consent of the Senate for six-year terms. One member must be a student member appointed by the Governor with the advice and consent of the Senate and upon the recommendation of the Community College presidents for a one-year term (Chapter 537, Acts of 1973). Members of the Board must be appointed for their interest in civic and public affairs and for their knowledge and perception in educational matters. One of the members must be a member of the State Board of Education. The Board selects its own officers and employees.

The same Act also provided that upon the request of a local board of education, local boards of community college trustees may be appointed. These local boards, if any, are to consist of seven members
