Administrative Bureau,  
Maryland State Police, Pikesville 21208

Telephone: 486-3101

The Governor appointed this Committee in 1971 to establish a safety program for State employees who drive State-owned and privately-owned motor vehicles during their performance of official State business.

Under this program, procedures have been established to initiate accident review boards in the various State Departments and Agencies. These boards review all motor vehicle accidents involving State employees on official business, determine chargeability, responsible conditions and recommend corrective action to be taken.

These actions have assisted in the reduction of accidents and the resultant costs. Continuation of this program will be a factor in making State drivers cognizant of their driving responsibilities and further contribute to the safe operation of the State Fleet.

Carl T. Richards, Executive Director

140 Main Street, Annapolis 21404

Telephone: 267-1279

The Governor appointed this Special Commission in 1972 at the request of the General Assembly to identify the various functions of government as being solely State, solely local, or joint State and local and to make recommendations as to the modification of intergovernmental fiscal relationships necessary to assure adequate resources for the performance of these functions. The Commission includes members of the General Assembly, elected county officials, elected officials of incorporated municipalities and persons with expertise in State and local
