

Law, Medicine, Nursing, Pharmacy, Social Work, and Community Planning offer both professional and graduate instruction. Complementing these schools are the University Hospital, the Institute of Psychiatry and Human Behavior, and the Health Sciences Library. The Maryland Institute for Emergency Medical Services is also centered on the campus.

The Baltimore County (UMBC) Campus is located in Catonsville at the southeast corner of the intersection of the Baltimore Beltway and Wilkens Avenue. Undergraduate offerings include a range of programs in the arts, sciences, and humanities, including professional and pre-professional programs in teacher education, social work, nursing, pharmacy, dental hygiene, medical technology, physical therapy, pre-law, pre-dental, pre-medical, and combined degree programs in medicine, law, and dentistry. Graduate programs are developing and include doctorates in applied mathematics, biochemistry, experimental biology, and policy sciences, as well as masters degrees in applied sociology, community clinical psychology, biological and medicinal chemistry, and instructional systems development.

At College Park instruction is offered at undergraduate and graduate levels in a wide variety of disciplines. There are the Colleges of Agriculture, Business and Management, Education, Engineering, Human Ecology, Journalism, Physical Education, Recreation and Health, and the Schools of Architecture and Library and Information Services. The schools, colleges, and departments are within the divisions of (1) Agricultural and Life Sciences, (2) Mathematical and Physical Sciences and Engineering, (3) Behavioral and Social Sciences, (4) Arts and Humanities, and (5) Human and Community Resources.

The Eastern Shore Campus (UMES) is located at Princess Anne. This campus offers baccalaureate degree programs within three divisions: (1) Liberal Studies, (2) Professional Studies, and (3) Experimental Studies. There are teaching degree areas and non-teaching degree areas including agriculture, art education, biology, building construction, business administration, chemistry, elementary education, English, history, industrial education, human ecology, mathematics, music education, physical education, social sciences education, and sociology. Minor areas include economics, foreign languages, political science, and physics. The initial years of nursing and pharmacy are offered at UMES. There is a master's program in guidance and counseling.

University College has its administrative headquarters and its conferences and institutes

center at College Park. As stated above, University College administers the adult and continuing education programs of the University of Maryland with fiscally self-supporting courses and programs offered in the late afternoon and evening on the several campuses and at off-campus centers throughout the State of Maryland. University College also maintains overseas centers for United States military personnel and civilians logistically supported by U.S. government agencies abroad in the European, Atlantic, and Far East Divisions. In addition, University College, through its Conferences and Institutes Division, has an extensive series of non-credit adult courses, seminars, workshops, and institutes. Since 1972 University College has operated an "open university" program in cooperation with the Open University of Great Britain.

Each campus operates one or more summer sessions.

The Graduate School embraces all of the graduate programs of the University with liaison among the campuses maintained by a Vice President for Graduate Studies and Research and through the President's Advisory Committee for Graduate Studies and Research.

## AGRICULTURAL EXPERIMENT STATION

Symons Hall  
University of Maryland  
College Park 20742 Telephone: 454-3707

The Maryland Agricultural Experiment Station was established following passage of the Federal Hatch Act in 1887. The Act made available to the states grants-in-aid for the conduct of research pertaining to agriculture and now both State and Federal funds support these activities. The administrative headquarters are located on the College Park Campus, as well as laboratories for research in the animal and plant sciences, agricultural engineering, agricultural and resource economics, rural sociology, and home and consumer economics. Provisions are made for maintenance of experimental herds, flocks, field and tree plots and for investigations of soils and insect and disease control (Chapter 55, Acts of 1888, as amended).

Research is conducted at nine locations throughout the State with particular attention to the type of farming dominant in the respective locations. These include the Plant Research Farm near Fairland in Montgomery County, the Tobacco Research Farm near Upper Marlboro in
