

Law, Medicine, Nursing, Pharmacy, and Social Work and Community Planning offer both professional and graduate instruction. Complementing these schools are the University Hospital, the Institute of Psychiatry and Human Behavior, and the Health Sciences Library. The Maryland Institute for Emergency Medical Services Systems is also centered on the campus.

The Baltimore County (UMBC) Campus is located in Catonsville at the southeast corner of the intersection of the Baltimore Beltway and Wilkens Avenue. Undergraduate offerings include a range of programs in the arts, sciences, and humanities, including professional and pre-professional programs in teacher education, information systems management, social work, nursing, pharmacy, dental hygiene, medical technology, physical therapy, pre-law, pre-dental, pre-medical, health science and policy, emergency medical services, and combined degree programs in medicine, law, and dentistry. Graduate programs are developing and include doctorates in applied mathematics, biochemistry, experimental biology, and policy sciences, as well as masters degrees in applied sociology, community clinical psychology, biological and medicinal chemistry, historical studies, and instructional systems development.

At College Park instruction is offered at undergraduate and graduate levels in a wide variety of disciplines. There are the Colleges of Agriculture, Business and Management, Education, Engineering, Human Ecology, Journalism, the School of Public Affairs, Physical Education, Recreation and Health, and the Schools of Architecture and Library and Information Services. The schools, colleges, and departments are within the divisions of (1) Agricultural and Life Sciences, (2) Mathematical and Physical Sciences and Engineering, (3) Behavioral and Social Sciences, (4) Arts and Humanities, and (5) Human and Community Resources.

The Eastern Shore Campus (UMES) is located at Princess Anne. This campus offers baccalaureate degree programs within three divisions: (1) Liberal Studies, (2) Professional Studies, and (3) Experimental Studies. Teaching degree areas and non-teaching degree areas include agriculture, art education, biology, business administration, chemistry, computer science, construction management technology, elementary education, English, environmental science, history, industrial education, hotel/restaurant management, human ecology, mathematics, music education, physical education, physical therapy, poultry technology and management, social sciences education, and sociology. Minor areas include economics, for-

eign languages, political science, and physics. The initial years of nursing and pharmacy are offered at UMES. There is a master's program in guidance and counseling, a joint master's program with UMCP in agricultural and extension education, and a joint program on the masters and doctoral level in Marine, Estuarine, and Environmental Sciences.

University College has its administrative headquarters and its conferences and institutes center at College Park. As stated above, University College administers the adult and continuing education programs of the University of Maryland with fiscally self-supporting courses and programs offered in the late afternoon and evening on the several campuses and at off-campus centers throughout the State of Maryland. University College also maintains overseas centers for United States military personnel and civilians logistically supported by U.S. government agencies abroad in the European, Atlantic, and Far East Divisions. In addition, University College, through its Conferences and Institutes Division, has an extensive series of non-credit adult courses, seminars, workshops, and institutes. Since 1972 University College has operated an "open university" program in cooperation with the Open University of Great Britain. A new Master of General Administration program is offered.

Each campus operates one or more summer sessions.

The Graduate School embraces all of the graduate programs of the University with liaison among the campuses maintained by a Vice-President for Graduate Studies and Research and through the President's Advisory Committee for Graduate Studies and Research.

AGRICULTURAL EXPERIMENT STATION

Symons Hall
University of Maryland
College Park 20742

Telephone: 454-3707

The Maryland Agricultural Experiment Station was established following passage of the federal Hatch Act in 1887. The Act made available to the states grants-in-aid for the conduct of research pertaining to agriculture and now both State and federal funds support these activities. The administrative headquarters are located on the College Park Campus, as well as laboratories
