The Office for Handicapped Individuals was established within the Office of the Governor by Chapter 295, Acts of 1984. Formerly, it was the Office for the Coordination of Services to the Handicapped.

The Office identifies and evaluates programs and services for handicapped citizens in the State. It collects information to identify needs and gaps in services and programs; coordinates and supports public and private agencies that provide services and programs to the handicapped; and provides an information and referral service.

The Office identifies barriers to the delivery of adequate services and recommends corrective procedures. It monitors and encourages State government compliance with laws and policies that affect handicapped individuals. Annually, the Office reports to the Governor on the status of services and programs and recommends to the Department of State Planning capital budget projects to improve access to State owned facilities. It also meets with and provides technical assistance to the State Advisory Council on at least a quarterly basis; and promotes the designation of local or regional offices to coordinate services to the handicapped.

The State Advisory Council advises the Office in carrying out its duties; reviews statewide activities for the handicapped; and fosters coordination and support for programs for the handicapped.

The Council, which consists of twenty-six members representing public and private agencies as well as handicapped individuals, is appointed by the Governor. The Governor also appoints the Director.

Authorization for the agency continues until July 1, 1994 (Code 1957, Art. 41, secs. 159, 160).
