Washington College is a coeducational liberal arts and sciences college established in 1782 (Chapter 8, Acts of April Session 1782). The College is governed by the Board of Visitors and Governors. The Board consists of thirty-seven members. The Governor appoints twelve members, one from each Eastern Shore county and three at large. Alumni of the College elect twelve additional members and the Board of Visitors and Governors itself selects another twelve. The final member is the College President, who is elected by the Board. Members serve six-year terms (Chapter 121, Acts of 1922).

Telephone: 441–4002

The Washington Suburban Sanitary Commission, the governing body of the Washington Suburban Sanitary District, was created by Chapter 122, Acts of 1918.

The Commission provides for the construction, maintenance, and operation of water supply and sewerage systems in Prince George's and Montgomery counties. Although it has jurisdiction over storm drainage in Prince George's County only, it regulates and inspects plumbing and gas fitting installations in both counties. The Commission has been designated as the organization responsible for the administration, maintenance, and operation of the Anacostia River Flood Control and Navigation Project.

The two major sources of water now supplying the Washington Suburban Sanitary Commission system are the Patuxent River, through the Patuxent Filtration Plant, and the Potomac River, through the Potomac River Filtration Plant. Much of the sewage from the Commission service area is transported through trunk sewers into the District of Columbia and is treated at the regional Blue Plains Pollution Control Plant in Washington, D.C. Sewage disposal plants operated by the Washington Suburban Sanitary Commission are near Laurel, at Piscataway Bay, and at the Western Branch of the Patuxent River. The Commission also operates several smaller wastewater plants.

Ten-Year Water and Sewer Plans for Montgomery and Prince George's counties, formerly drafted by the Washington Suburban Sanitary Commission, are now prepared by the respective county governments. The Commission's annual budget also is subject to joint approval by the governing bodies of the two counties. The Commission has the responsibility for setting customer rates pertinent to Washington Suburban Sanitary Commission functions in its Suburban Maryland service area.
