The Maryland Legal Services Corporation was established in 1982 (Chapter 829, Acts of 1982). The Corporation receives and distributes funds for legal aid to eligible clients in noncriminal proceedings or matters. The Corporation ensures that grants and contracts are made so as to provide the most stable, economical, and effective delivery of legal assistance. It also ensures that eligible clients in all areas of the State have access to the Corporation's services.

The Corporation establishes maximum income levels for client eligibility. These are based on a client's financial inability to pay for competent private counsel and other necessary expenses of representation. Maximum income levels for eligibility set by the Corporation may not exceed 50 percent of the median family income for Maryland, as certified annually by the U.S. Department of Health and Human Services.

The Corporation is governed by a Board of Directors, comprised of five lawyers and four non-lawyers. They are appointed to three-year terms by the Governor with Senate advice and consent. The Board appoints the Executive Director who serves ex officio as a nonvoting Board member (Code 1957, Art. 10, secs. 45A through 45-0).

The Corporation's annual report and a brochure describing its services are available upon request.

The Lida Lee Tall Learning Resources Center is a laboratory environment for the study and development of early childhood and elementary education. The Center enables college students who are prospective teachers to demonstrate and observe effective teaching practices. Facilities for research are made available at the Center for faculty from teacher education programs, prospective principals, and experienced teachers in elementary schools.

Created in 1984, the Board of Trustees governs the Center (Chapter 641, Acts of 1984). The Board's eleven members are appointed to three-year terms by the Governor (Code Education Article, secs. 24-106 through 24-107).
