The Library collection of 60,000 volumes consists of Maryland laws and related legislative and legal materials, laws and publications of other states, federal documents, and general reference materials. The Department serves as an official depository for the publications of Maryland State agencies and for all local codes published by county and municipal governments (Code 1957, Art. 25, sec. 32A; Art. 25A, sec. 7; Art. 25B, secs. 7, 12; State Government Article, sec. 2-1312; Education Article, sec. 23-2A-01). *Maryland Documents*, a list of State agency publications, is issued monthly. Bill status and other legislative information is provided through the information desks and toll free telephone numbers for the public. Speakers, tours and materials on the legislative process are available for constituents, visitors, and school groups.

The Division coordinates the Department's publication program and is responsible for publication of the *Committee Meetings and Hearing Schedule*, *Daily Synopsis*, and *Maryland Clipper*, as well as various rosters, flyers, videos, and brochures about the General Assembly and the Department and indexes to bills, laws, and journals.

RESEARCH DIVISION

Myron H. Miller, *Director*

841-3875

The Research Division responds to inquiries or requests from legislators, committees, and their staff on nonlegal issues with information, surveys, research, policy analysis, and problem-solving options.

Research analysts are trained in social sciences disciplines and participate in a nationwide information network of universities, governments, private laboratories, research centers, and professional organizations. Division analysts also provide staff support to special legislative committees, joint task forces, commissions, and the standing committees on specialized issues. Their support complements the legal counsel provided by the Legislative Division.

Although the Research Division primarily responds to questions raised by legislators, research analysts also initiate independent research on topical issues of potential interest to legislators. This research is published in the *Legislative Report Series* and may be found in the Department's Library.

COMPUTER SERVICES DIVISION

Michael C. Coffin, *Director*

841-3787

The Computer Services Division operates data processing equipment for the preparation of bills, the entry and maintenance of data into the bill status system, and the preparation of several departmental publications. These publications include committee hearing schedules, synopses of laws, and legislative indexes. The work of the Division's proofreading staff complements the Division's data processing.
