

ENVIRONMENTAL ASSESSMENT PROGRAM
Narendra Panday, *Administrator*
(410) 631-3572

The Environmental Assessment Program manages Maryland's scientific database for water quality of the Chesapeake Bay, its tributaries, rivers, streams, lakes, and other waters within the State. The Program develops and applies mathematical and other predictive models as the basis for the Department's water regulations and policy. In addition, the Program assesses water quality associated with channel dredging in Baltimore Harbor and Chesapeake Bay.

WATER QUALITY MONITORING PROGRAM
Morris L. Hennessey, *Administrator*
(410) 974-3238

The Water Quality Monitoring Program was restructured in 1990 under the Water Management Administration. In 1992, it became part of the Chesapeake Bay and Watershed Management Administration. The Program provides field support, on-site observations, water quality assessments, and data for the Chesapeake Bay and Watershed Management Administration, the Water Management Administration, and other Department programs.

DEFUNCT DEPARTMENTAL AGENCIES

ASBESTOS & INDOOR AIR QUALITY CONTROL DIVISION

Under the Community Environmental Services Program of the Air and Radiation Management Administration, renamed Asbestos Licensing and Enforcement Division in 1993.
