NONPOINT SOURCE (NPS) COMPLIANCE REGION 3 DIVISION

In 1993, renamed the Eastern Inspection Division under the Inspection and Compliance Program of the Water Management Administration.

NONPOINT SOURCE (NPS) COMPLIANCE REGION 4 DIVISION

Functions of the Division were transferred to other divisions under the Inspection and Compliance Program of the Water Management Administration in 1993.

POLICY & EVALUATION PROGRAM

Formerly under the Sediment and Stormwater Administration, the Program was reorganized in 1992 as the Nonpoint Source Permits Program under the Water Management Administration.

SCHOOL ASBESTOS ASSISTANCE DIVISION

In 1993, the Division was reorganized as the Asbestos Accreditation and School Assistance Division.

SEDIMENT & STORMWATER ADMINISTRATION

In 1992, functions were assigned to the Water Management Administration.

SPECIAL PROJECTS DIVISION

Formerly under the Water Supply Program, the Division was renamed in 1993 as the Source Protection and Compliance Division under the Public Drinking Water Program of the Water Management Administration.

SPRAY IRRIGATION & GROUNDWATER PROTECTION DIVISION

In 1993, renamed the Groundwater Protection Division under the Individual Septics and Wells Program of the Water Management Administration.

STANDARDS & SHELLFISH SANITATION PROGRAM

In 1993, renamed the Water Quality Program under the Water Management Administration.

TOXICS, ENVIRONMENTAL SCIENCE & HEALTH ADMINISTRATION

In 1992, functions were assigned to various units, including the Waste Management Administration,

Water Management Administration, Chesapeake Bay and Watershed Administration, and Office of the Secretary. The PCB Compliance Program concerning the federal Toxic Substances Control Act (TSCA) was ended. The Administration's work with asbestos continues under the Air and Radiation Management Administration.

TOXICS OPERATIONS DIVISION

Formerly under the Environmental Response and Restoration Program of the Waste Management Administration, functions of the Division were reassigned in 1992. The toxics registries function became part of the Tracking and Toxics Inventory Division of the Waste Management Program. The Lead Abatement and Demonstration Project, previously overseen by the Toxics Operations Division, was merged with the Lead Compliance Division of the Environmental Response and Restoration Program.

TOXICS OPERATIONS PROGRAM

Under the Toxics, Environmental Science and Health Administration, the Program became the Toxics Operations Division within the Waste Management Administration in 1992.

TRACKING & CERTIFICATION DIVISION

Within the Waste Management Administration, the Division was renamed the Tracking and Toxics Inventory Division of the Hazardous Waste Program in 1993.

UNDERGROUND STORAGE TANKS (UST) DIVISION

Within the Waste Management Administration, functions of the Division were assigned to the Compliance and Remediation Division of the Oil Control Program in 1993.

WASTEWATER INSPECTION DIVISION

In 1993, renamed the Enforcement Division under the Inspection and Compliance Program of the Water Management Administration.

WATER QUALITY OPERATION PROGRAM

Under the Water Management Administration, reformed in 1992 as the Standards and Shellfish Sanitation Program.

WATER SUPPLY PROGRAM

Under the Water Management Administration, renamed the Public Drinking Water Program in 1993.
