The Domiciliary Care Facilities Board was created by the Governor at the request of the General Assembly in 1984 (Joint Resolution no. 23, Acts of 1984). In 1986, the Board was established by law (Chapter 726, Acts of 1986).

Because the Department of Health and Mental Hygiene, the Department of Human Resources, and the Office on Aging all license and regulate domiciliary care facilities, the Board formulates and implements policy and coordinates agency responsibility. The Board also reviews and approves policies and regulations that govern domiciliary care facilities and related programs. Such facilities provide domiciliary, personal or nursing care to unrelated individuals who are dependent on the facility for assistance with daily living activities in a safe, sanitary and healthful environment.

The Board has nine members. Four are appointed to four-year terms by the Governor and include a domiciliary care facility provider, and three consumers. One member, appointed by the Governor, represents the Maryland Disability Law Center. Four serve *ex officio*. The Governor designates the chairperson (Code 1957, Art. 41, sec. 10-601).

The Corporation operates in economically distressed areas of the State. It helps State and local economic development agencies expand, modernize, and retain businesses, and attract new ones.

The Board of Directors is appointed by the Governor with Senate advice and consent. It consists of twelve members, including two *ex officio* voting members. Members serve four-year terms.
