The Governor created the State Data Security Committee in 1983 (Executive Order

01.01.1983.18). The Committee establishes computer security policies and standards for State government agencies in the Executive Branch. Regularly, the Committee evaluates and tests the security of computerized records systems of State agencies. For agency data security officers and information technology administrators, the Committee hosts an annual data security conference.

The Committee consists of nine data professionals within State service. The representative of the Department of Budget and Management serves as chair. Any agency security officer assigned to the Committee may not participate in any computer system security analysis of that officer's own agency by the Committee.

By Executive Order, the Governor created the Maryland State Planning Council on Developmental Disabilities in 1971 to carry out provisions of the federal Developmental Disabilities Services and Facilities Construction Act (P.L. 91-517), now the Developmental Disabilities Assistance and Bill of Rights Act (P.L. 98-537; P.L. 103-230). To protect State eligibility for certain federal grants, a new council was appointed in 1973 to meet revised criteria of the U.S. Department of Health, Education, and Welfare for consumer members. Formerly housed in the Department of Health and Mental Hygiene, the Council moved for administrative purposes to the Office for Individuals with Disabilities (formerly Office for Handicapped Individuals)
