To make use of the preceding Table, find the Sunday Letter for the Year in the uppermost line, and the Golden Number or Prime, in the column of Golden Numbers, and against the Prime, in the same line, under the Sunday Letter, you have the day of the Month on which *Easter* falleth that Year. But

Note, That the name of the Month is set on the Left hand, or just with the Figure, and followeth not as in other Tables, by descent, but collateral.

Table to find Easter-Day from the year 1900 to the year 2199, inclusive.

The Golden Numbers in the foregoing Calendar will point out the days of the Paschal Full Moons till the year of our Lord 1900; at which time, in order that the Ecclesiastical Full Moons may fall nearly on the same days with the real Full Moons, the Golden Numbers must be removed to different days of the Calendar, as is done in the annexed Table, which contains so much of the Calendar then to be used, as is necessary for finding the Paschal Full Moons, and the Feast of *Easter*, from the year 1900, to the year 2199, inclusive. This Table is to be made use of, in all respects, as the 1st Table, before inserted, for finding *Easter* till the year 1899.
